Please ask for Sergeant Whibberley

Dear Parent,

North Wales Police are committed to hearing and responding to the needs of all people who make up the communities we serve. It is essential that all local people have the opportunity to influence how their neighbourhood is policed and hear about what we have done in response to any issues raised.

Young people form a large part of our communities and traditionally have been less inclined to engage with the police. Following consultation with schools in the Wrexham South area we are introducing regular visits to make officers more available to your child.

I ask that you encourage your child to take advantage of this opportunity. Should you have any questions about this approach please contact me.

Yours Sincerely

**[Darren Whibberley - PS1777](#)**
