Features and Benefits

Facebook Privacy Checkup helps your child review who can see their posts and info from their profile, like a phone number and email address. It also shows them their settings for apps they've logged into with Facebook.

What specific content can I restrict?

What do I need?

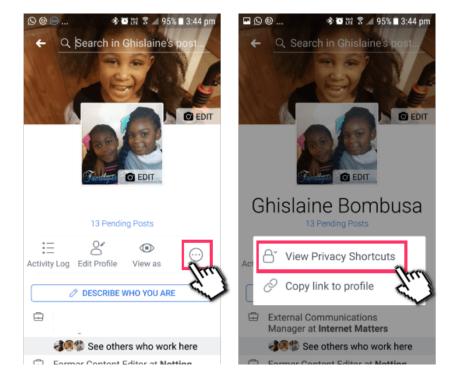

A Facebook account (username and password)

Step by step guide

1

Go to the settings tab on your child's Facebook app on their phone and scroll to 'Privacy shortcuts'

Step by step guide

2

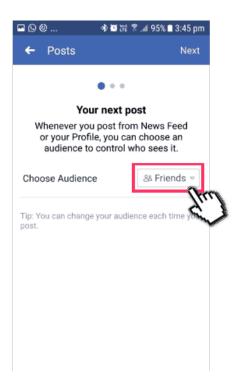

On the 'Privacy shortcuts' there is a really useful took called 'Privacy Check-up'. This takes you through three steps to make sure your child is sharing their content with the right people.

Who can see my stuff? Who can see your future posts? Friends Where do I review who can see things that I've posted or been	Privacy Check-up Thanks for making some time for this. Now let's go through 3 steps to help make sure that you're sharing with the right people.
tagged in? Use Activity Log Who can contact me? Who can send you friend requests? Friends of friends	NEXT

Step by step guide

³Select continue to choose who to share Facebook posts with. This could be a link, video, a photo or a story. Make sure your child has selected 'Friends' to prevent strangers seeing your child's content.

Step by step guide

⁴ The next section on the 'Privacy checker' is all about your child's profile, include who they share their phone number, email address and birthday with. We would recommend you advise your child to provide little information here as possible. If you do want to include the data, simply ensure the 'friends' options is ticked here.
