Dear Parent/Guardian

Design and Technology at The Maelor School

Design and Technology plays an important role in the overall education of all pupils at The Maelor School. The equipment and materials provided for pupils help to ensure that the best quality education can be offered to each and every pupil. As a result of rising costs of materials and equipment Food Technology are asking for help from the families of pupils for the school academic year from September 2012 to July 2013. A **£7.00** annual voluntary contribution would assist in ensuring that the quality of education is continued. Participating in this donation will help towards the high cost of materials and avoid teachers having to ask parents/pupils for contributions for each project within Food Technology. At the end of each project, pupils will have the benefit of taking home their practical work. Contributions are purely voluntary and will not affect in any way the high quality education which the teaching staff currently provides for all students. All parents of students are asked to complete and return the slip attached to this letter to the Finance office as soon as possible. A reply in either respect ensures that parents have seen the letter.

The majority of products produced at school should return home with the student at the end of the day.

Thank you for your continued support of Design and Technology at The Maelor School.

Yours sincerely

Andrew Wlodarczyk
Head of Design and Technology
