Particular Subjects, Skills or Interests

A Level Welsh is a challenging but rewarding course, therefore, it is important that you have an interest in the language. You will learn about a variety of topics which you will not have studied at GCSE, making this an interesting course. You will need to have at least a B/6 grade in GCSE Welsh.

Study Visits/Fieldwork

During year 12 and 13 a visit to Glan-Llyn is available. This involves a 3-day residential at the annual sixth form conference.

Post-18 Opportunities

A Level Welsh is a well-respected qualification which can help you find your future career both in and out of Wales. It can lead to employment in a variety of sectors such as the media and law and a variety of public services such as the police, local and national government and education.

There are great advantages in being bilingual. Welsh law expects public services to treat Welsh and English on an equal basis so there has been a rise in the demand for people who can communicate in both languages. Twice the language, double the skills.
